Year 4 - Autumn 2

Knowledge Organiser

Why do settlements change?

What I already know:

To know what a continent is and to know the 7 continents and 5 oceans

To know the difference between country and continent

To know the four countries of the UK

To know the difference between human and physical features

To know that Waterlooville is a town

Key knowledge:

To know what a settlement is.

To know the differences between village, town and city.

To use 4 fig grid references on an OS map.

To identify some symbols and the key on an OS map.

To know the different classifications of land use.

Key vocabulary

Village	A village is a small town or community, often in the country side.
Town	Larger population than a village. Will have a high street, supermarkets etc.
City	Larger populations than towns, usually 100,000+. Have large networks. Often have universities and/or cathedrals.
Settlement	A settlement is a place where people come and live.
Land use	How the land in a village, town or city is used.
Residential	Residential areas are areas that people live.
Retail	The sale of things in small amounts to customers who will use them.
Recreation	Recreation is doing things to relax and have fun.
Industrial	An industrial city is a city that has factories. It is the making of products on a large scale.
Map symbols	Pictures on a map to help show what can be found in a particular place.
Key	A part of the map used to find out what the symbols on the map mean.
Grid reference	A set of numbers that give a location on a map.
OS map	An official, detailed map of Great Britain that is regularly updated to show changes in land.
Transport	Transport is the moving of people or things from one place to another.
